Assignment 5

G HARSHA VARDHAN REDDY (CS21BTECH11017)

Abstract—**This document contains a problem from Q.3 of CBSE Class 9 Chapter 14 (Probability) Exercise 14.3.**

Problem 1. *Exercise 15.3, Q3.* *Given below are the seats won by different political parties in the polling outcome of a state assembly elections:*

Political Party	A	B	C	D	E	F
Seats Won	75	55	37	29	10	37

TABLE I: Raw data

1) *Draw a bar graph to represent the polling results.*
2) *Which political party won the maximum number of seats?*

Solution:
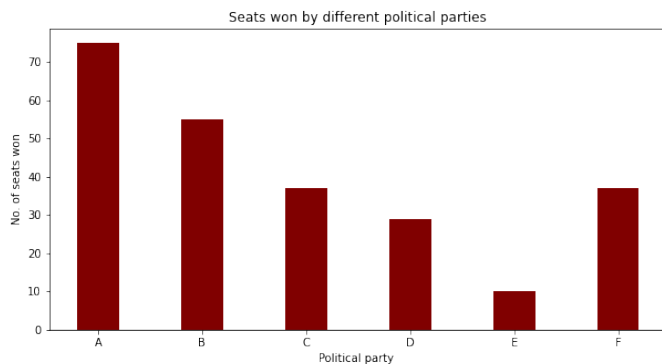

1) Let's draw the bar graph using the raw data

Fig. 1: Bar graph representing political results

2) From the bar graph it is clear that the party with maximum seats is **'A'**
